Education

University of Florida, Ph.D. Computer Science Aug 2025 – Present

- CGPA: 4.0/4.0

Ashesi University, BSc. Computer Science Sep 2018 - May 2022

- CGPA: 3.95/4.00 (Top 1%)
* Graduated with *Summa Cum Laude*, with highest academic honors.

Research Interest

Neuro-Symbolic AI; Multi-Agent Systems; Multilingual Low-Resource NLP (African Languages); Efficient and Controllable Language Generation.

I investigate neuro-symbolic and multi-agent approaches to NLP in low-resource contexts. My goal is to develop systems that utilize structured linguistic knowledge to facilitate efficient, reliable, and controllable language understanding and generation, with a focus on African languages.

Publications

Conferences

An Elicitation-Matrix Approach to Pragmatic Context Modeling in Low-Resource Machine Translation: The Case of Akuapem Twi May 2026

Kweku Andoh Yamoah, Godfred Agyapong, Kevin C. Scroggins, Neel Parekh, Chathuri Jayaweera, Shlok Gilda, Bonnie Dorr, Emmanuel J. Dorley

In *The International FLAIRS Conference Proceedings*, 39(1), doi: 10.32473/flairs.39.1.141846

Winning Isn't Reasoning: Evaluating Iterative Reasoning Updating in Language Models May 2026

Kevin C. Scroggins, **Kweku Andoh Yamoah**, Emmanuel J. Dorley

In *The International FLAIRS Conference Proceedings*, 39(1), doi: 10.32473/flairs.39.1.141832

Enhancing Speech instruction Understanding and Disambiguation in Robotics via Speech Prosody Aug 2025

David Sasu, **Kweku Andoh Yamoah**, Benedict Quartey, Natalie Schluter

In *Proc. Interspeech 2025*, doi: 10.21437/Interspeech.2025-1961

Evaluating Deepfake Speech and ASV Systems on African Accents Sep 2023

Kweku Andoh Yamoah, Hussein Baba Fuseini, David Ebo Adjepon-Yamoah, Dennis Asamoah Owusu

In *Deep Learning Indaba 2023*

Workshops

Building a Functional Machine Translation Corpus for Kpelle July 2025

Professional Experience

Partner-in-Residence (PIR), Denison Consulting – Granville, OH (Remote) Jan 2026 – Apr 2026

Consulted and mentored a team of 5 undergraduate students across different class levels and majors, guiding them in developing an agentic AI approach for a client in the legal domain, improving delivery speed and process efficiency by 60%.

Graduate Research Assistant, University of Florida, CISE – Gainesville, FL Aug 2025 – Present

Graduate Research Assistant in the Intelligent Agents Research Lab under Prof. Emmanuel Dorley, focusing on multilingual low-resource NLP for African languages. Responsibilities include building language datasets, developing neuro-symbolic representations, fine-tuning language models for tasks such as translation and speech, and documenting reproducible experimental pipelines to produce publication-ready results.

Undergraduate Teaching Assistant, Ashesi University – Berekuso, Ghana Aug 2022 – March 2025

Courses handled: Machine Learning, Introduction to Artificial Intelligence, Natural Language Processing, Discrete Structures & Theory, and Networks & Data Communications, Cloud Computing, Intermediate Computer Programming in C++.

Awards

Best Paper Finalist in Datasets Track DeepLearning Indaba, 2025 August 2025

Best Computer Science Senior Capstone Project, Ashesi University June 2022

Dean's List, Ashesi University 2019, 2020, 2021, 2022

MasterCard Foundation Scholar, Ashesi University 2019, 2020, 2021, 2022

Invited Talk

Natural Language Processing: An Overview, *Introduction to Artificial Intelligence* (CAP 4621), University of Florida, Gainesville, FL Nov 2025

Academic and Professional Services

Reviewer

Feb 2026 African NLP Workshop

University Service

Academic Committee Co-Chair, Ashesi Student Council Feb 2021 - May 2021

Faculty Intern for Ashesi Success, Ashesi University Feb 2021 - May 2021

Coach for the Coaching, Counseling, & Academic Peer Support Group, Ashesi University Sep 2019 - Nov 2021

Volunteer Service

Hackathon Judge, Ashesi Design Lab 2022, 2023

ML Session Tutorial Lead, Maker's Session, Ashesi Design Lab 2023

Technologies

Main Programming: Python

Familiar Programming Language: C++, C, Java, SQL

ML libraries: PyTorch, TensorFlow
